

## Michigan Association for Infant Mental Health Recommended and Suggested Resources in Preparation for the Endorsement Exam, Levels III & IV

### **Recommended and Suggested Resources**

In Preparation for the MI-AIMH Endorsement Exam, Levels III & IV, members of the MI-AIMH Endorsement Committee have prepared this list of recommended readings that we believe are essential for infant mental health practitioners and providers of reflective supervision/consultation. Additional suggestions are included for further reference and study. Please keep in mind that it is impossible to include all of the written materials that provide a solid foundation for understanding and promoting infant mental health! It is equally important to remember that each infant mental health professional builds a personal knowledge base over time and in relationship to specific work experiences and challenges, i.e., clinical case work, home visiting practice, supervisory role, training, teaching, and research. Finally, and perhaps most important, the integration of knowledge into one's best practice takes place within the context of regularly scheduled, reflective supervision/consultation experiences.
